

Fools Paradise

Creepmime

Sink your identity
Fuse with a heavenly body
Lose your heart
And make a god in her imageSink into oblivion
Friends, your love I have forgotten
Mend your hearts
And make a god in her image and mineIs this what you call ecstasy?
Child your paradise is foolish
Feel your heart break and bleed
As she steals itThink of an alternative
Friend a soulmate isn't worth your soul
Free your heart
Exorcise the devil from your life
