

Kiss Me At Midnight

*NSYNC

Kiss me at midnight
5...4...3...2...1
Kiss me at midnight
Dance into the morning light
Party into the new year
All of my friends are here and when the time is right
Kiss me at midnight (kiss)I've been waiting for this special night
To be with you
The colors of Christmas are still shining bright
And I know what we're gonna doAnticipating
Music is playing
The magic is in the air
All through the season
You've been the reason
I have so much love to shareKiss me at midnight
Dance into the morning light
Party into the new year
All of my friends are here and when the time is right
Kiss me at midnight (kiss)We've been making promises in the dark
Our resolutions
As a brand new year is about to start
And we're together
Celebrating
No more waiting
Our time has arrived
Feel the beat of my heart
As the countdown starts
Just look into my eyesKiss me at midnight
Dance into the morning light
Party into the new year
All of my friends are here and when the time is right
Kiss me at midnight (kiss)Baby it's New Years Eve
A time we can believe
In making wishes
Dreams come true
Just for me and youKiss me at midnight
Dance into the morning light
Party into the new year
All of my friends are here and when the time is right

Kiss me at midnight (kiss)
Kiss me at midnight
Dance into the morning light
Party into the new year
All of my friends are here and when the time is right
Kiss me at midnight (kiss)
