

# Top Drop

## Secret Music

Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    For you, jackers that's hatin'  
    Run up, try to rob, yeah, bitch, I'm a be waitin'  
In the country, see me skatin' on my chrome, lookin', good  
    You fuck with my bitch and I'm a shoot up ya hood  
Still leather and the wood that's tradition down in Texas  
    Roll Cadillac, we don't fuck with no Lexus  
    Bitch by my side in my ride lookin' lovely  
Pour up out the paint, we ain't sippin' on no bubbly  
Screwed tape loud while I'm swangin' by the crowd  
    And the dro got me, how it feel like I'm in a cloud  
    I'm a H-Town nigga, reppin' for P.A.T  
    Big Hawk, DJ Screw, Big Moe and Pimp C  
I'm a shine for my city, fuck them haters, talkin' down  
    So holla at a nigga when you see me walkin' round  
    07 was a hard one but I can be found  
In my slab, puffin' pounds, tryna take away my frown  
    And I  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
    Got the damn top, got the damn top drop  
Got the, got the, damn top drop, got my glock clocked  
    Glock clocked  
I got my mind on my money and my glock in my hand  
    Grindin' hard, paper stackin', tryna follow the plan  
Pullin' gloss and steams, chasin' million dollar dreams  
    Livin' the thug life, I get it by any means  
When times get hard, I got no one to hold me down

So I ride with the top down and cruise around town  
The boppers in line 'cause I been known to be a slab rider  
Comin' down clean, marchin' like a freedom fighter  
When you ride 4's, partner stay strapped

The gone catch ya at the light and put one in ya cap  
See I keep it in my lap, I ain't slippin' for none  
And I ain't got sprayed by any but homie I ain't done  
I'm 'bout to raise a truck and drop a couple of screens  
I'm thinkin' [Incomprehensible] with 'bout 4-15's  
See the leather is perforated, them boys gone sho' hate it  
My slab is undisputed I'm the number one rated

With my top drop

Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
Got the damn top, got the damn top drop  
Got the, got the, damn top drop, top drop, top drop  
Got the damn top, got the damn top drop  
Got the, got the, damn top drop, got my glock clocked

Glock clocked

While they waitin' on me to fall, I'm a still stand tall

Ball hard in the mall

I been shinin' for a while, haters, ya in denial  
Since back in 9-8, I been wreckin' freestyles  
With spit lines that'll put a smile on ya child  
And do a song that'll make the hood go wild

The flow versatile when they hear it they like wow

That boy got talent, yeah, I like your style

But, uh, no pressure, don't let the bullshit stress ya

A [Incomprehensible] with somebody test ya, God bless ya

Ya grind lesser, ya shine lesser

Ya win when you don't let this material shit impress ya

Insides like a dresser, wood grain on the dash

My motto, fuck pain, put my name on the cash

I used to wish and dream I could swang on the glass

Now cars, clothes and hoes is a thang of the past

And I

Got the damn top, got the damn top drop

Got the, got the, damn top drop, top drop, top drop

Got the damn top, got the damn top drop

Got the, got the, damn top drop, top drop, top drop

Got the damn top, got the damn top drop

Got the, got the, damn top drop, top drop, top drop

Got the damn top, got the damn top drop  
Got the, got the, damn top drop, got my glock clocked  
Glock clocked
