

Where Did The Party Go

Fall Out Boy

Na na na na na na
Na na na na I'm here to collect your heart
It's the only reason that I sing
I don't believe a word you say
But I can't stop listening This is the story of how they met
Picture was on the back of a pack of cigarettes
And when she touched him he turned ruby red
A story that they'll never forget
Never forget And all the boys are smoking menthols
Girls are getting back rubs
I will drift to you if you make yourself shake fast enough My old aches become new again
My old friends become exes again Whoa where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Where, where did the party go? Na na na na na na
Na na na na I know I expect too much
And not enough all at once
You know I only wanted fun
And you got me all fucked up
On love Oh I hoped for your name on the ouija board
And your making
magic oh dear lord
You and me are the difference between real love
And the love on TV
Love on tv And all the boys are smoking menthols
Girls are getting back rubs
I will drift to you if you make yourself shake fast enough My old aches become new again
My old friends become exes again Woah where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Where, where did the party go? Na na na na na na
Na na na na All the kids who screamed we weren't the same
In sweaty rooms
Now we're doomed to organising walk in closets like tombs Silent film stars stuck in talking cinema light
So let's fade away together one dream at a time Na na na na na na
Na na na na Whoa where did the party go?
We were ending it on the phone
I'm not gonna go home alone
Where, where did the party go? Na na na na na na

Na na na na
Na na na na na na
Na na na na
