

# Rebel Girl

## Survivor

Out on the edge of night  
In any city you can name  
There rides the rebel girl  
The wild one no-one dared to tame  
And the light in her eyes is a fire  
Have you seen her  
The rebel girl in action in the city  
At night you hear her call  
Oooh rebel girl  
Don't try to take her in  
She says she runs her life alone  
She wants you to believe  
A rebel's heart is made of stone  
And the light in her eyes is desire  
Have you seen her  
The rebel girl in action in the city  
At night you hear her call  
Oooh rebel girl so lonely and so pretty  
Bringing out the rebel in us all  
Oooh girl  
It's a lonely world, for a rebel girl  
So far from home, she's all alone  
In her rebel world  
Oh, have you seen her  
The rebel girl in action in the city  
At night you hear her call  
Oooh the rebel girl so lonely and so pretty  
Bringing out the rebel in us all  
Oooh girl  
She's just a rebel girl (have you seen her)  
She's just a rebel girl (have you seen her)  
She's just a rebel girl (have you seen her)  
She's just a rebel girl (have you seen her)  
She's just a rebel girl (have you seen her)
