

Coming Alive

Unhindered

I feel your wind upon my face
Your heart, your sweet embrace
Such peace I can never fake
When I'm Near you

I feel the scales falling off my eyes
My hearts veil ripped open wide
Like I'm born for a second time
When I'm near you

Oh Oh Oh I'm coming alive in your presence (2x)
Yeah

I hear your voice through a open
I see the saints that have gone before
Cheering me to my great reward
To be with you

Oh Oh Oh I'm coming alive in your presence (4x)

We join in with the angels
We join in with all the saints
We join in with creation
Worthy is the lamb, worthy is the lamb (2x)

Worthy is the lamb, worthy is the lamb (2x)

Oh Oh Oh I'm coming alive in your presence (5x)

I wanna be right where you are (4x)
