E.M.C.

Tantra

Talkin
You're still talking
You're still talking
But I'm not here.

If this is what you've got
Then i think we've had enough
The whole thing is so antiquated

We're different people now
We need to carry on under
A different understanding
And with different motives

Ohh everything must change oh

Ohh everything must change oh

Ohh everything must change oh
