Den Bosch

The New Division

I finally found the words you said
You always saw the light
It was hard to take a breath
When it was hard to rest tonight
You took a walk down where I've been
You saw the colors through my eyes
So wait here, I'll keep you close
So where you live I'll sleep tonightSo just shout away, don't walk all night
Just walk away, with tears insideI finally found the words you said
You always saw the light
It was hard to take a breath
When it was hard to rest tonight
You took a walk down where I've been
You saw the colors through my eyes
So wait here, I'll keep you close
So where you live I'll sleep tonightSo just shout away, don't walk all night
Just walk away, with tears inside
So just shout away, don't walk all night
Just walk away, with tears inside
