

# Den Bosch

## The New Division

I finally found the words you said  
You always saw the light  
It was hard to take a breath  
When it was hard to rest tonight  
You took a walk down where I've been  
You saw the colors through my eyes  
So wait here, I'll keep you close  
So where you live I'll sleep tonight So just shout away, don't walk all night  
Just walk away, with tears inside I finally found the words you said  
You always saw the light  
It was hard to take a breath  
When it was hard to rest tonight  
You took a walk down where I've been  
You saw the colors through my eyes  
So wait here, I'll keep you close  
So where you live I'll sleep tonight So just shout away, don't walk all night  
Just walk away, with tears inside  
So just shout away, don't walk all night  
Just walk away, with tears inside
