Invisible

Josh Gracin

Baby, you always stop singin' when I walk into the room
And just the other night why did you stop dancin'
When I caught you in the kitchen with the broom?
A part of you, you still keep all to yourself
When I'm aroundSometimes I wish I was invisible, baby
And stand in the doorway, you're drivin' me crazy
With every simple natural thing that you doSometimes I wish that I could disappear
So baby, without you knowin' I'm here
I could fall in love all over again
With the way that you move'Cause when you're all alone
And you don't know that I'm watchin'
You're so beautiful
Sometimes I wish I was invisibleI'd go crazy every mornin', just seein' you put up your hair
That I'd ride shotgun with you all the way to work
Just to watch you walkin' in when you got there
Baby, I'd love to see all those things you keep from me
When I'm not aroundSometimes I wish I was invisible, baby
And stand in the doorway, you're drivin' me crazy
With every simple natural thing that you doSometimes I wish that I could disappear
So baby, without you knowin' I'm here
I could fall in love all over again
With the way that you move'Cause when you're all alone
And you don't know that I'm watchin'
You're so beautiful
Sometimes I wish I was invisibleSometimes I wish that I could disappear
So baby, without you knowin' I'm here
I could fall in love all over again
With the way that you move'Cause when you're all alone
And you don't know that I'm watchin'
You're so beautiful
Sometimes I wish I was invisible
Sometimes I wish I was invisible
You're so beautiful
