

Overdue

The Get Up Kids

You're a few years overdue
I spent them waiting here for you
Now your charity's refused
I can't name a penance for abuse Twenty-four years overdue
What kind of role model are you?
Very least learn not to do
I think I might be over you Do hope I won't learn to make
The same mistakes that you would
Make me aware that only fear
My only hope is letting go Went on a limb for you
Capsized when I turned twenty-two
Did it burn as bad for you?
No bottle serves to soothe my wounds Do hope I won't learn to make
The same mistakes that you would
Make me aware that only fear
My only hope is letting go
My only hope is letting go You're a few years overdue
I spent them waiting here for you
