Destroyed By You

Vanilla Ninja

Baby do you really know
What you ment to me
You were like a lighthouse
That Was shining just for me
But then I found my heart
Was taken in by you last night
And my belief was braking into
Fragments deep inside
There's a light - Light in my life
To let me know - I will survive
Tell me why - why was this light
Killed by you - destroyed by you
Baby did you really mean
What you did to me
I was blinded by the light
So I just could not see
That my love would lead
Into the darkness of dispair
And in the moment of destruction
You'd say - I don't care

There's a light - Light in my life
To let me know - I will survive
Tell me why - why was this light
Killed by you - destroyed by you
Baby do you really know
What you ment to me
You were light a lighthouse that
Was shining just for me
Light - Light in my life
To let me know - I will survive
Tell me why - why was this light
Killed by you - destroyed by you
Light in my life
There's a light - Light in my life
To let me know - I will survive
Tell me why - why was this light
Killed by you - destroyed by you
