

Mpi

The Jude

You got a system I got a gun
I'll vote with a bullet don't try and run
So answer the question
What have we learned right now Your leadership is completely blind
You keep getting rich on my dime
You got the time
But there's no time right now You scream revolution
They scream revolution
We scream revolution It's not the way you wanna be
But you're divorced from reality
Or are you just not on speaking terms right now The NDP and MPI
Just stupid fools who waste our time
Cheap communism in disguise right now You scream revolution
We scream revolution
They scream revolution You scream revolution
You scream revolution
You scream revolution
