

Day One

Chris Brown

You've been down for me
Since day one, day one, day one, day one, day one, day one
And you've been riding for me girl
Since day one, day one, day one, day one, day one, day one
I knew you had my back girl
Since day one, day one, day one, day one, day one, day one
And I'm happy that you're my
Day one, day one, day one, day one, day one, day one shawty First off, baby that's loyal
Most of these girls ain't royal
And that's why you know I'm gonna spoil you
And I'd do anything for you
Need your hair done, I'd fix it
Want a new bag, I'd get it
Girl you look good, let me kiss you
I wanna spend this money up with you
Pop a couple bands for the rent
Take it, that's money well spent
That's for all the money you spent
That's for all the money you lent me girl
Everything that I been through I ain't 'bout to act brand new
Real friends, only got a few
And real talking, baby, you the truth
Oh, if you ask me if I got you, you know what the answer is
You know it girl
Girl you damn right, damn right, damn right, damn right You've been down for me
Since day one, day one, day one, day one, day one, day one
And you've been riding for me girl
Since day one, day one, day one, day one, day one, day one
I knew you had my back girl
Since day one, day one, day one, day one, day one, day one
And I'm happy that you're my
Day one, day one, day one, day one, day one, day one shawty Baby I can tell your future
Drop top, girl let me scoop you (scoop you up)
And I don't wanna ever, ever lose you
Real chick, baby, I salute you Everything that I been through
I ain't 'bout to act brand new
Real friends, only got a few
And real talking, baby, you the truth
Oh, if you ask me if I got you, you know what the answer is

You know it girl
Girl you damn right, damn right, damn right, damn right You've been down for me
Since day one, day one, day one, day one, day one, day one
And you've been riding for me girl
Since day one, day one, day one, day one, day one, day one
I knew you had my back girl
Since day one, day one, day one, day one, day one, day one
And I'm happy that you're my
Day one, day one, day one, day one, day one, day one shawty You are the reason I don't fuck with you niggas
Only the homies from day one
Call up my baby cause we ain't talk in a minute
Name saved as Bae on my phone
Give her a minute, when she come over we kissin'
She my day one, only one better than all my bitches
Pussy too good when I bang I'm on a mission
Body to body when we changing up positions I'm like a particle
I pick her like eeny meeny miney mo
Hop out the plane like Geronimo
I lock her down like Guantanamo
I give that pussy a taste
Put that shit all in my face
She likes the Codeine and the J
Baby girl all I can say You've been down for me
Since day one, day one, day one, day one, day one, day one
And you've been riding for me girl
Since day one, day one, day one, day one, day one, day one
I knew you had my back girl
Since day one, day one, day one, day one, day one, day one
And I'm happy that you're my
Day one, day one, day one, day one, day one, day one shawty
