It`s Me

Ð‘Ð°Ð±Ð° Ð¯Ð³Ð°

I know that you'll wait, you said it's not me
I know that you'll wait, you said it can't be
I thought it midway, I thought it midwayTo find a way, the only way it's me
Your eyes are lost and you will wait to see
To find a way, the only thing in me
It's gone ahead and by the way it's meI know that you'll wait, you said it's not me
I know that you'll wait, you said it can't be
I thought it midway, I thought it midwayTo find a way, only way it's me
Your eyes are lost and you will wait to see
To find a way, the only thing in me
It's gone ahead and by the way it's meI'll know why, I'll know why, if I can finally believe
And if I, and if I, if I can let you hold by me, meI'll know why, I'll know why, if I can finally believe
And if I, and if I, if I can let you hold by me, meTo find a way, the only way it's me
Your eyes are lost and you will wait to see
To find a way, the only thing in me
It's gone ahead and by the way it's me
It's me, it's me
