Severed

Chimaira

Stay awake to decide
Are you coming back?
Is this my sanity?
I can't forgiveOh, is it the same to me?
I can't take your place
I'll never see you, never flee from me
SeveredLost lies in the house I bring
I can't fucking see
I can never pull your self from me
I can't focusLibertine my, said to be
I will never save you
Wait, today is not the same
Severed
