I Don't Believe In You

Duncan Sheik

Life is like a sinking ship and you are at the wheel
You see the hole is filling up, you know your fate is sealed
But still you keep on trying to steer the ship to shore
It's time to learn the lesson you should've known before
Well, there's nothing you can do
And we don't believe in you
No, there's nothing you can do
And we don't believe in you
No, we don't believe in you
Life is like a ship at sea, we fear of storms to strike
Though you are the captain you can't keep up the fight
The truth is there is much to fear and more to make us cry

The ship is not worth saving hard as you may try
So there's nothing you can do
'Cause we don't believe in you
No, there's nothing you can do
And we don't believe in you
Hate to say it, it's time to face the truth
And we don't believe in you
Try your hardest, you couldn't help but lose
And we don't believe in you
No, we don't believe in you
No, we don't believe in you
