Don't Blame Me

Donell Jones

This a message
There comes a time in a mans life
When we gotta let go of them little boy habits
And become a man
Listen to meDont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Dont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Was a man
Cared about all the things you did for me
And put the business before my family
Was a man
No good examples I learned from the streets
Cause I really thought I was being a manThink of the time in a mans life
When we gotta wake up and see things different
Im not the past cause its dead and gone
I just start over now cause I aint been living
When I give my love to you
If youll see youll stick around
But youre first in ym life true
Ive been acting a fool
Let me confess my sins to you
I wanna make this thing right
Baby dontDont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Dont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Was a man
Cared about all the things you did for me
And put the business before my family
Was a man
No good examples I learned from the streets
Cause I really thought I was being a manDidnt take the lead cause depression called out
Doing dirt with homies I aint proud
Cause I realized how much you mean to my life
When I opened up my eyes
Dont focus on the past be open to new
This moment we can break through
Should I love you baby and I wanna hear you say

We forgive me and we gonna be together always
Dont balme meDont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Dont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Was a man
Cared about all the things you did for me
And put the business before my family
Was a man
No good examples I learned from the streets
Cause I really thought I was being a manI thought I was being a man
But I wasnt out playing in the streets
Do you hear me yeah?Dont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Dont blame for the things that I did when I was younger
I was only trying to be what I thought was a man
Was a man
Cared about all the things you did for me
And put the business before my family
Was a man
No good examples I learned from the streets
Cause I really thought I was being a manlyrics here...
