

Pasadena

Pompeya

Well, you put me in the fire
Threw me in the river
Days go on and days go by
Went and took your wings away
And moved to Pasadena
Never got a kiss goodbye
We erased a little time
And got a little meaner
Wanna have
Better life
Now you packed your wings away
And moved to Pasadena
Where you're gonna be alright
Looking good
Check your speed
Fire wants to be
In the middle line
No i can't chase you now
Why you wanna be
On the middle line
This is the move, tonight
Why you wanna be in this ride?
Why you wanna make us divide,
Baby, if you want to sit tight?
This is move, tonight
How d'you wanna fix what we find?
Let it come together alright.
I'll do anything and you try
Tried so many times
To take you up and over
Broke the code
I'm feeling fine
Keep dancing with your mind
Call me when you're sober
But don't cross
The yellow line
Looking good
Check your speed
Fire wants to be

In the middle line
No i can't chase you now
Why you wanna be
On the middle line
This is the move, tonight
Why you wanna be in this ride?
Why you wanna make us divide,
Baby, if you want to sit tight?
This is move, tonight
Why you always picking a fight?
Let it come together alright.
I'll do anything and you try
Why you wanna be in this ride?
Why you wanna make us divide,
Baby, if you want to sit tight?
This is move, tonight
How d'you wanna fix what we find?
Let it come together alright.
I'll do anything and you try.
