

# Bottle Rocket

## Heatmiser

He's a sink full of numbers (? )  
A watery life of a deep repent  
Bothered, I'm on my own collar (? )  
And he even knows your nameAnd on my way down  
Right out the door  
Amused by the pastI'm a hopeless ? ? ? ?  
I'm gonna have him framed  
Oh, anything to pin him down  
I need him, he won't take the blameAnd on my way down  
Right out the door  
Amused by the pastI never swallowed that spike before  
A watery life of a deep repent  
Bothered, I'm on my own collar (? )  
And he even knows your neamAnd on my way down  
Right out the door  
Amused by the past
