

# Can't Remember It

## Tyler and the Tribe

Well there's a lot of thing  
Floatin' through my head  
And at night all I do  
Is toss and turn in this bed  
I've been thinkin' 'bout you  
And your sweet melodies  
And I hope there as good  
As I'm remembering Well I couldn't turn around  
But you wouldn't follow me  
Down, down, down The way that I'm headed  
I'm startin' to forget it  
You may not be what I thought you were  
But I can't remember it now Well you different  
But you turned out good  
The only thing that I hate  
Is when you turn to different moods I'll just walk away  
And I'll try some other time  
Some other place, some other sound  
And some other rhyme Well I couldn't turn around  
But you wouldn't follow me  
Down, down, down The way that I'm headed  
I'm startin' to forget it  
You may not be what I thought you were  
But I can't remember it now Well I found out not long ago  
That there ain't no rules  
And the guys that stick to the patterns  
Only make themselves fools If you're good to me  
Then I'll be good to you  
I hope this is all  
That I need to do Well I couldn't turn around  
But you wouldn't follow me  
Down, down, down The way that I'm headed  
I'm startin' to forget it  
You may not be what I thought you were  
But I can't remember it now!
