

# Glass House (ft. Curren\$y & Bigg Kritt)

## Wiz Khalifa

[Chorus (x2)]

Don't you wanna rest that ass in this glass house.

Don't, don't you wanna rest that ass in this glass house.

Don't you wanna rest that ass in this glass house.

If you aint suckin or fuckin than get yo ass out.[Verse]

Dash digital situation critical

Hate to make it so blatant baby

But I aint playing

Maybe you got me confused

With one of them other dudes.

I aint none of them.

Under they breath mumbling.

Scared to tell them hoes what it is.

You put yourself in that position.

I chill with all that baller fishing

You fucked around and you caught a shark.

Cold hard, tear your feelings apart.

I'm more focused on getting my rims powder-coated.

One of the dopest, I'm schedule one

You just ibuprofen, what is you smoking?

Them bogus growers, they got you choking

The options open, you can hide with them suckas

Or ride low and get higher than a motherfucka![Chorus]Straight stunting, sucka niggas I take from them.

They bitches that is, get up in the car with wiz

They know they gonna bake something, aint frontin'.

Smoking it off the eighth onion

Get it twisted because you see me on your computer screen

Thinking because you got wireless you get as high as us

Bitches leaving they lame niggas to ride with us

Planes over everything in the fly we trust.

Just by the smell it's obvious

That my connect come from cali

Im good long as the money piling up

All the while im just quick lane pimping

Big jane twisting

Walking how I talk it bitch that's Pittsburgh pimping.[Chorus][Verse]

Now I was candy coated, bendin corners

55th wheelin' made a killin' with the bumper grill nd' chandelier cellin', plush linen

Is you fucking, is you sucking

I was wondering cuz if not  
Don't be pushing on my buttons in my cutlass  
Unless you cuttin'. Bitch I'm just saying  
I aint tricking is the reason that this porno flick playing  
Trunk shaking knocking pictures off the wall  
Southern maiden call, 808 mean no draws  
You got friends, I fuck em' all  
What you mean you aint nasty  
Why the fuck you came  
Just imagine what you got to do to get up in my plane.  
Mississippi pimp mouth piece frigid  
Dolomite out of sight  
Show you right, can you dig it, shawty?[Chorus]
