Bottle

Green Apple Quick Step

I've got a bottle for you
Got a bottle for you
Gotta bottle
I've got a bottle for you
Got a bottle for you
Gotta bottle
I've got a bottle for you
Got a bottle for you
Gotta bottle
I've got a bottle for you
Got a bottle for you
Gotta bottle
Shoot your bow and tip you're glass
Your the monster in my dreams
I can't recall everything
I just know you're the monster in me
Lock the door
It just doesn't matter
Inside my head is you and me
I got a bottle for you
Gotta bottleWhat's a matter with you
What's a matter with you
What's a matterWhat's a matter with you
What's a matter with you
What's a matterWhat's a matter with you
What's a matter with you
What's a matterWhat's a matter with you
What's a matter with you
What's a matterAs advertised I have wave goodbye
To beauty breath by breath
Wake me up put me to sleep
My consiousness has faded
Wrap me down kiss the cool
Monster has reloadedWhat's a matter with you
What's a matter with you
What's a matterWhat's a matter with you
What's a matter with you
What's a matter matter matter matter
Bottle bottle bottle bottleAs advertised I have wave goodbye

To beauty breath by breath
Wake me up put me to sleep
My consiousness has faded
Wrap me down kiss the cool
Monster has reloadedWhat's a matter with me
What's a matter with me
What's a matterWhat's a matter with me
What's a matter with me
What's a matterWhat's a matter with me
What's a matter with me
What's a matterWhat's a matter with me
What's a matter with me
What's a matterWhat's a matter with me
What's a matter with me
What's a matter
