

Vampires (Afrolicious & Rob Garza Remix)

Thievery Corporation

They'll gain the world but lose their souls
They'll gain the world but lose their souls Don't believe politicians and thieves
They want our people on their bended knees
Pirates and robbers, liars and thieves
You come like the wolf but dressed like the sheep If you go to Lagos what you find, vampires
If you go to Kinshasa what you find, vampires
If you go to Darfur what you find, vampires
If you go to Malabo what you find, vampires Lies and theft
Guns and debt
Life and death
IMF When the bank man comes to your door
Better know you'll always be poor
Bank loans and policies
They can't make our people free You live on the blood of my people
Everyone knows you've come to steal
You come like the thieves in the night
The whole world is ready to fight If you go to Lagos what you find, vampires
If you go to Kinshasa what you find, vampires
If you go to Darfur what you find, vampires
If you go to Malabo what you find, vampires Lies and theft
Guns and debt
Life and death
IMF They'll gain the world but lose their souls
They'll gain the world but lose their souls You live on the blood of my people
Everyone knows you've come to steal
You come like the thieves in the night
The whole world is ready to fight If you go to Lagos what you find, vampires
If you go to Kinshasa what you find, vampires
If you go to Darfur what you find, vampires
If you go to Malabo what you find, vampires Lies and theft
Guns and debt
Life and death
IMF
