

Praise Him In Advance (Intro)

[Marvin Sapp](#)

Ive had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemy Ive had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemy I started singing, I started clapping
I started dancing, people were laughing
They knew my problems, they knew my pain
But I knew God would take them away Ive had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemy Ive had my share of ups and downs
Times when there was no one around
God came and spoke these words to me
Praise will confuse the enemy I started singing, I started clapping
I started dancing, people were laughing
They knew my problems, they knew my pain
But I knew God would take them away Thats why I praise him with my hands
Thats why I praise him with a dance
Hes given me a second chance
Come on lets praise him in advance Thats why I praise him with a song
When things are right and when theyre wrong
Hes given me a second chance
Come on lets praise Him in advance Praise Him, Praise Him
Praise Him, Praise Him
Praise Him, Praise Him
Praise Him in advance
