I Need Love

Robin Thicke

Settle down love for a minute
I wanna take you by the hand and hold you
Ive waited so many nights
To see you
And i wanna take out all my problems on you

I can do better than make love to you
Better than make you say my name
Please, please, please
Oh dont you make me have to beg
I need love love love love love
I need love love love love love

Angel wont you slow down
Seems like youre always packing and unpacking again
And i now that the hardest thing is to please you
You would bring most men to their knees

I can do better than make love to you
Better than make you scream my name
Please please please
Ohh dont you make me have to beg
Cause i need love love love love love
I need love love love love
