

When Liking Turns to Loving

Ronnie Dove

I hold her hand much tighter now
Stars are shining brighter now and through out the day I find
She's always on my mind
What a wonderful, wonderful feeling
When liking turns to loving Kiss from her, means so much more
Now I know what kissing for
The tender smiles I use to know, now I cherish so
What a wonderful, wonderful feeling
When liking turns to loving Just a little girl, (A little girl) now she's my whole world
Music feels the starlet night, when I kiss and hold her tight
And one day just the way we plan, she'll wear my wedding band
What a wonderful, wonderful feeling
When liking turns to loving And one day just the way we plan, she'll wear my wedding band
What a wonderful, wonderful feeling
When liking turns to loving
What a wonderful, wonderful feeling
