

The Wrong Car

The Twilight Sad

And we were there with our ears to the ground
Coz he was right behind you.....And are you ready for the island?
Did you see it when it breaks apart
Coz you weren't fair, and you were marred, and you weren't fair
Do you stay in at night, because it's more than you can bare to show x2
Coz we've been wrong before.....And on the right side of the wrong car x2

And what was frail from the laughs and the walk, coz he was right behind you
And are you ready for the days end?
She was rising from the run, it wasn't far, your brush was dripped, and you were tarred, your cards were marred
And are you ready for the days end?
And is your pretty little dress all covered in dirt x2
Do you stay in at night because it's more than you can bare to show?

Oh you'll slow down, coz I had everything you wanted, oh you'll slow down now,now,now
Coz we've been wrong before x2
We're on the right side of the wrong car x2
And oh I lay, and do you worry about me? Because I'm always waiting to see you
And does your stomach still ache, from the wife that he'll take? Because I'm always waiting to see you x2
Do you stay in at night because it's more than you can bare to show (repeat)
Coz we've been wrong before....And on the right side of the wrong car (repeat)
