

Gold

Kiara

Caught up in my tape
Don't care what you say
I'ma bite your feelings out
I miss you in the basement
What your brother (???) substitute for you
If you love me, love me
But don't you ever let me come
When the roof is on fire
you never let me know
Say you're sorry, honey
but you never really show
And I can leave the party without
Ever letting you know
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Without ever letting you know (gold gold gold) Caught up in my tape
Just like money when I speak
And I miss you in the basement
Yeah
Body's on the payment
If you love me, love me
But don't you ever let me come
When the roof is on fire
you never let me know
Say you're sorry, honey
But you never really show
And I can leave the party without
Ever letting you know
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Without ever letting you know (gold gold gold) Caught up in my tape
Just like money when I speak
and I miss you in the basement
Yeah
Body's on the payment
If you love me, love me, love me

But don't you ever let me come
When the roof is on fire
You never let me know
Say you're sorry, honey
But you never really show
And I can leave the party without
Ever letting you know
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Not ever letting you know (gold gold gold)
Without ever letting you know (gold gold gold)
