Eggshell

Die Krupps

I live in an eggshell - not as strong as it seems
I protect myself from the world - don't fit in its scheme
my home is unstable - the walls are wearing thin
I break under pressure - but I'm trying to endure withinBreak the shell - and you will regret it
Break the shell - you wish you never did it
Break the shell - you won't like what you see
Break the shell - you won't recognize meYour world around me is cracking my shell
the weight of your problems makes my life hell
under the pressure from your house of pain
I choose to live in my shell under strainI've tried to conform - I've tried it your way
I've tried to conform - live my life day by day
this is my reality - my life is in a shell
this is my heaven - outside is my hellI can't deny it - I reached my breaking point
I personify it - an eggshell in duress
I can't deny it - I'm at my limit
I identify with - an eggshell in duress.
