Lies

Naked Aggression

Lies- they tell us
Lies- they tell us
Lies- they tell us
Fucking liarsI'm sick of all their damn lies
That they've told me since I was young
I'm sick of all their patriotic shit
Forced us to sing national anthems
And pledge allegiance to their flag
I was strong and I learned to resistWe are told that this is the land of the truth and justice
Don't believe them
We are told that we should be proud to serve our country
Don't believe them
We are told that the flag is a sign of our freedom
Don't believe them
The first step to resistance is questioning what they tell usLies- they tell us
Lies- they tell us
Lies- they tell us
Fucking liarsIf I hear another lie
About how the government helps me
I think that I'm going to explode
Everyday another law gets passed
To take away our freedom
Pretty soon we will have nothing leftWe are told that this is the land of the truth and justice
Don't believe them
We are told that we should be proud to serve our country
Don't believe them
We are told that the flag is a sign of our freedom
Don't believe them
The first step to resistance is questioning what they tell us
