

Rain Down

[Robin Loxley](#)

Grab my Molly, tell her where I'll be
Go call my sister, tell her what you've seen
I fell down to darkness
Let it rain down, rain down over me, over me

Leaving in the water, give me one last trip
Pour me that whiskey, I'll show you where I sinned
It's time to give it up, won't you rain down
Rain down over me, yeah over me

On the seventh day, I was burnin like the sun
No luck to go, the devil he had won
He said to me it's gonna rain down, rain down over me
Over me

Lead me by the hand, walk me to the light
Please make this quick as time aint on my side
When the lights are fading, it's gonna rain down, rain down
Over me

Rain down, rain down over me
Rain down, rain down over me
Rain down, rain down
Rain down, rain down over me
Over me
