Rescue Me (feat. Vince Gill)

Andrew Ripp

Kind feel like praying
Don't know what I'm saying been so long
Kinda feel like crying
I've crossed a line and I can't find home
But if anybody hears me
And you can undo the things i've doneDrag me down to the river and throw me in
Aint talking bout the shallow but the deepest end
Take me down and hold me under
Don't let me breathe
Until you know I'm good and ready
For you to rescue meKinda leek like singing
First time feeling in oh so long
Kinda feel like swaying
Moving to the rhythm of a heeling song
Momma must be praying
Cause I can't explain what's going onCan't believe how far I've gone
If there's still a room for me at home
