## This Is Beautiful

## **Tyrone Wells**

Hey, get your things, it's time to go You make me glad I'm not alone In silence we hear the tires upon the roadI turned to you and asked you why You're so awake you must be tired You say when we're apart you'll close your eyesThis is beautiful, this is beautiful Unmistakable, this is beautifulWe spent the day in central park I wrote my name down on your arm You set off avalanches in my heartThis is beautiful, this is beautiful Unmistakable, this is beautifull never could have seen Never could have seen this coming The most amazing things They arrive within a moment I never could have seen Never could have seen this coming on I never could have seen Never could have seen this coming You are here with me, I'm alive all of a sudden Anyone can see, anyone can see it's beautifulYou set off avalanches in my heart You set off avalanches in my heart You set off avalanches in my heart You set off avalanches in my heartThis is beautiful, this is beautiful
