## Albert Hammond, Jr.

I like to live like I'm in a cartoon  
Yes, I'm chasing you all around the room  
I beat your, beat your brains out, that's how I flirt  
Oh, it's a vicious little game but no one gets hurt  
And it's a hey, hey  
Let's keep it together  
Can we, hey, hey  
Work it out?

This love's a cartoon, baby, in Technicolor  
Screw your head back on 'cause here comes your mother  
With her curlers made of dynamite  
She's throwing them at us tonight  
This is a pretty, pretty kitty but the kitty still bites  
Yes, it's a pretty, pretty kitty but the kitty still bites  
I like to live like I'm in a cartoon  
Got a bowling ball on a tablespoon  
A striker striking you out, drop it on your head  
Kill you a hundred different ways but you're still not dead  
And it's a hey, hey  
Let's keep it together  
Can we, hey, hey  
Work it out?

This love's a cartoon, baby, in Technicolor  
Screw your head back on 'cause here comes your mother  
With her curlers made of dynamite  
She's throwing them at us tonight  
This love's a cartoon, baby, and you're the hero  
Pop your greens down, lover, then whack the weirdo  
He's trying to fly me to the moon  
But I'm just staying here with you  
This is a pretty, pretty kitty but the kitty still bites  
Yes, it's a pretty, pretty kitty but the kitty still bites  
Yes, it's a pretty, pretty kitty but the kitty still bites  
Bound to the sound, get down, get down, down  
Itty bitty, nitty gritty, polka dotted, pretty kitty  
Bound to the sound, get down, get down, down  
Itty bitty, nitty gritty, polka dotted, pretty kitty  
I like to live like I'm in a cartoon  
Yes, I'll suck you up into my vacuum

A bumble, bumble bee, honey, and I need a mate  
Oh, it's illegal where we live but we're outta state  
This love's a cartoon baby in Technicolor  
Screw your head back on 'cause here comes your mother  
With her curlers made of dynamite  
She's throwing them at us tonight  
This love's a cartoon, baby, and you're the hero  
Pop your greens down, lover, then whack the weirdo  
He's trying to fly me to the moon  
But I'm just staying here with you  
This is a pretty, pretty kitty but the kitty still bites  
Yes, it's a pretty, pretty kitty but the kitty still bites  
Yes, it's a pretty, pretty kitty but the kitty still bites  
Na, na, na, na, na, na  
I've got a microphone  
Na, na, na, na, na, na  
I've got a microphone
