Come on in
I hear your voice
Change the frequency
And make that choiceConstitution
Find new ground
You've gotta know
I think about you every dayYou're lying awake on top of silver clouds
Sending Love back downIt's real love [x3]
Can't you feel it
Can't you breathe it inCome on in
I hear you sing
All together

You've gotta know
I think about you every dayYou're lying awake on top of silver clouds
You're sending love back downIt's real love [x3]
Can't you feel it
Can't you breathe it inReal love [x6]
