## **Frequency**

## **Feeder**

Come on in

I hear your voice

Change the frequency

And make that choiceConstitution

Find new ground

You've gotta know

I think about you every dayYou're lying awake on top of silver clouds

Sending Love back downIt's real love [x3]

Can't you feel it

Can't you breathe it inCome on in

I hear you sing

All together

Different skinSuperstition

Prophecy

You've gotta know

I think about you every dayYou're lying awake on top of silver clouds

You're sending love back downIt's real love [x3]

Can't you feel it

Can't you breathe it inReal love [x6]
