

Peace Blossom Boogy

The Babe Rainbow

Let's go to Venice (da, da, da-da)

Man that can move is what a girl wants
Stay up all night talking, love you in the morning
Jack will have Jill and everything will be just fine
I need some contact overseas, please come back

You'll get the contact, when you're late, take your time

Oh, what a world
Up all night talking, love you in the morning

(da, da, da-da)

Kiss the wrong person goodnight
I need some contact overseas, please come back

You'll get the contact, when you're late, take your time
La la la, la la la

La la la, la la la

La la la, la la la

La la la, la la la

But who invented natural rhythm?
