

Always

Kenny Rogers

Always and forever, each moment with you
It's just like a dream to me that somehow came true
And I know tomorrow will still be the same
'Cause we got a life of love that won't ever change
Every day, lend me your own special way
Melt my heart away with a smile
Take time to tell me you really care
And we'll share tomorrow together
There'll always be sunshine when I look at you
It's something I can't explain, just the things that you do
If you get lonely, call me and take
A second to give to me the magic you make
Every day, I'll always love you forever
Every day, baby, baby, baby, I'll love you forever
I'll always love you forever
Together, forever
