

# Hey Love

Stevie Wonder

Hey love  
Hey loveHey love  
(Hey love)  
May I have a word with you?  
(Hey love)I'd like to tell you, yeah  
(Hey love)  
Just what I've been going through  
(Hey love)My nights are so long  
As I watch each hour go by  
Hoping and praying  
That someday I will be your guyHey love  
You're my one true soul desire  
Hey love, baby  
Can you feel this burning fireHey love  
(Hey love)  
There's one thing I find so true  
(Hey love)When you are near me  
(Hey love)  
I go through a change or two  
(Hey love)Hearing your footsteps  
I hurry to catch your eye  
And I stand there waiting, yeah  
But girl, you just walk on bySay love  
With a cold heart you are dealing  
Hey love, yeah  
It's an awful hurting feelingHey love  
(Hey love)  
Don't pass me without some sign  
(Hey love)Just look me over, yeah  
(Hey love)  
You might want to change your mind  
(Hey love)
