F.W.B.

Wayne Brady

Honey, listen
There's something we've been missing
But I'm worried that this just might cross the line
See we're laughing, you touch me
And I feel it go right though me
This chemistry's driving me out my mind listen babyI, Im just so attracted baby
And there's always a maybe between you and I
Tonight, girl lets go, let's see what happens
Cause I'm tired of imagining,
What loving you feels likeOh, whatever you need, baby I can be
And I got no strings to complicate things
Darling can't you see
Both of us our grown, Got needs of our own
Baby, lets be F.W.B.Lets be lovers, friends, and confidants
Coz you're all the woman I could want
Dont nobody need to know
We're Friends With BenefitsListen, momma, we both don't want no drama
You can still do your thing, and I'll do mine
When it hits you, that feeling
And you need some sexual healing
You just call me girl and I'll be right on timeCause I, Im just so attracted baby,
And there's always a maybe, between you and I
Tonight, girl lets go, let's see what happens
Cause I'm tired of imagining
What loving you feels likeOh, whatever you need, baby I can be
And I got no strings to complicate things
Darling can't you see
Both of us our grown, Got needs of our own
Baby, lets be F.W.B.Girl you've always been my best friend
Cause you know me, and I know you
This is a natural progression
And girl this don't have to mean nothing
Unless you want it, and I want it
So please don't keep me guessin' noLets be lovers, friends, and confidants
Coz you're all the woman I could want
Dont nobody need to know
We're Friends With BenefitsOh, whatever you need, baby I can be
And I got no strings to complicate things
Darling can't you see

Both of us our grown, Got needs of our own
Baby, lets be F.W.B.Are you cool with it?
(I'm cool with it)
Are you cool with it?
(I'm cool with it)
U cool with it?
(Im cool with it)
U cool with it?
(Yeah)
