

# As Far As I Can See

Solea

It's been a while you've carried this load  
The more you require the less you can hold  
Made it to the headlines the papers today  
It said coney island could just float away

You've got to do what you can to move on  
You can dream wide awake when you're gone  
You're not responsible for me as far as i can see

What's selfish and empty can haunt like a ghost  
This life that i'm leading it scares me the most  
Thought I'd seen it all

You've got to do what you can to move on  
You can dream wide awake when you're gone  
You're not responsible for me as far as i can see

---
