The Bottle And Me

Jake Owen

Didn't come in here the old sympathy
And a honky tonk please, the last thing I need
Just set me up with your best whiskey
Yeah, this is just between the the bottle and me
I don't wanna talk, I don't need a friend
Don't think I stuttered when I said
I'm here to deal with a memory
Yeah, this is just between the the bottle and me
Man can't face the cold hard truth
With nothing less than none to prove
In closing time, that's when I leave
'Til then it's just between this the bottle and me
You're a good bartender, I know you wanna help
So if you see me talking to myself
Just walk away and let me be
Yeah, this is just between the the bottle and me
A man can't face the cold hard truth
With nothing less than none to prove
In closing time, that's when I leave
'Til then it's just between this the bottle and me
A man can't face the cold hard truth
With nothing less than none to prove
In closing time is when I leave
'Til then it's just between this the bottle and me
'Til then it's just between this the bottle and me
