

# Aberdeen

## Natsat

I was over in Aberdeen  
On my way to New Orleans  
Well the Aberdeen women told me  
They would give me my gasoline  
Aberdeen is my home  
But they just don't want me around  
Aberdeen is my home  
But they just don't want me around  
I'm gonna take these women  
Take them out this town  
Well just look over yonder  
Coming down the road  
That must be my baby coming  
Tell me she don't want me know more  
Well there's too many women  
I bring too many women

Back from New Orleans  
I was standin' 'roun cryin'  
With my heart right in my hand  
I was standin' 'round cryin'  
With my heart right in my hand  
I was lookin' for that woman  
One ain't got no man  
Well just look over yonder  
Where we used to live  
Don't you know it's killing me, baby  
How we can't live here no more  
Well it's goodbye, baby  
If I'm never gonna see you no more  
Well it's goodbye, baby  
If I'm never gonna see you no more  
I'm gonna tell everybody you've been  
Still knockin at my door
