

You and Me

Tom Petty & The Heartbreakers

Take a look at what I got
I can't promise you a lot
 But you and me
And the road aheadI can't save you from yourself
 You gotta want it
 All that's left is you and me
And the road aheadWherever that wind might blow
 Wherever that river rolls
You know I will go with youLookin' over the mountain's crown
 The water roars and tumbles down
 Like you and me
And the road aheadWherever that wind might blow
 Wherever that river rolls
You know I will go with you, ooh, ohJust you and me
 And the road ahead
 Just you and me
 And the road ahead
