

The Last One

NeoAnthony

Did you know that the right won?
Another fool, you're the sidearm
And it's enough that you broadcast
 You got to touch
Well, this is the last one
 This is the last one
Did you find what you wanted?
Another match for the straw man
I've had enough, it can bleed through
 You think you're tough
Well, this is the last one
 This is the last one
Hold on to me one more night
Hold on to me, can't take it all

 Can't take it all
And you know that I need you
But you know I can see through you
 Well, this is the last one
 This is the last one
 This is the last one
 (Can't take it all)
This is the last one for me
 (Can't take it all)
 This is the last one
 (Can't take it all)
 This is the last one
 (Can't take it all)
 This is the last one
