

# Freakout!

## Mini Mansions

Face in the crowd  
You're talking too loud  
But I can't hear you calling Your head in the clouds  
Whatever come out  
Well I can't see you crawling while we're out Life of a cloud  
Lost in the sound  
You can't see me crying We're out on the town  
No fun around  
And I'm about to freak out I been down The needles and pins  
Nobody wins  
If you freak out all morning Merry-go-round  
Swim till you drown  
I feel it kicking in from all around With no one around  
I'm bound to freak out  
And I just keep falling round and round I been down I get down Face in the crowd  
You're laughing too loud  
But I just keep on falling round and round I been down
