New Love

Cherrelle

One, two, three, ha, oh-ooh
Hey, hey, oh-ooh, hey, goGot to find a new love
I know that's right
Got to find a new loveLove life's a bore, the same old, same old thing
To stay in love is never easy
We've got to do things to keep love fresh and new
Experiment as much as we canGot to find a new love
Got to find a new loveMaybe I'll use some honey or some jam
To sweeten up the sour places
Love making by the fire may heighten your desire
Or stimulate some new ideasGot to find a new love
Got to find a new love
Got to find a new love
Got to find a new love, right nowDon't misunderstand me I'm not looking for someone new
I'm just improving what I've got already
'Cause working for a successful good relationship
Is what I find don't satisfy meGot to find a new love
Got to find a new love
New love, got to a find new love
New love, got to a find new loveNew love, got to a find new love
New love, got to a find new love
New love, got to a find new love
New love, got to a find new loveNew love, got to a find new love
New love, got to a find new love
New love, got to a find new love
New love, got to a find new loveNew love, got to a find new love
New love, got to a find new love
New love, got to a find new love
New love, got to a find new loveNew love, got to a find new love
New love, got to a find new love
New love, got to a find new love
New love, got to a find new loveNew love, got to a find new love
