

# Fond Farewell

## The Living End

Well look at what you made me, what you made me, what you made me do  
You say I am angry, I am angry all because of you  
Look at what you made me, what you made me, what you made me do  
Here's a little thing I dedicate to you because I bid you a fond farewell  
Hope the story's good to tell  
I bid you a fond farewell  
I'll be seeing you in hell Look just what you've done, just what you've done  
Just what you've done to me  
Left me standing all alone, now how long is it gonna be?  
Look just what you've done, just what you've done  
Just what you've done to me  
One more thing before I go, a final message I bid you a fond farewell  
Hope the story's good to tell  
I bid you a fond farewell  
I'll be seeing you in hell Go now I bid you a fond farewell  
Hope the story's good to tell  
I bid you a fond farewell  
I'll be seeing you in hell I'll be seeing you in hell  
I'll be seeing you in hell  
I'll be seeing you in hell  
I'll be seeing you in hell
