

That's How Things Go Down

[Carole King](#)

Here I am
Carrying the child of our sweet love
And you're far away
That's how things go down
But I wanna see you again Though I've known
Others in life who've made it on their own
I'm afraid that's how things go down
But I wanna see you again Hey, with each day that passes by
I pray that I will see you soon
And you will be here with me
To see the child being born Safe and sound
All I can do is wait and hope that you'll be around
That's how things go down
I wanna see you again
